

**INVITATION FOR IDEAS FORM:  
Nesting Methodist Chapel building**

**The Methodist Church has recently indicated to CDCN that the Nesting Methodist Chapel building may be sold in the near future.**

Acting as facilitators, CDCN would therefore like to encourage the local community to suggest ideas for the building - as an alternative to it potentially being sold to a private buyer at such a time. CDCN will collect these ideas, and then present them to the wider community to see if any local groups, societies and/ or entrepreneurs may be interested to take the building on and implement one or more of these ideas.

**Ideas which are identified for the building would ideally:**

- **be supported by, run by and used by the community**
- **be financially sustainable**
- **avoid duplicating services/ facilities already present in the community.**

Therefore, we invite you to respond to each of the following questions (1 - 4). Once all responses have been received, we will present these to the wider community for discussion but will do so anonymously. If you have more than one idea, please feel free to complete more than one form. Please send in your responses by **Monday 19<sup>th</sup> September 2022** in one of the following ways:
